### DESCRIPTION

This is the most beautiful hard-hitting, pro-America, Pro-Trump, patriotic list on the market today. You will not find a more choice selection of donors fired up to reverse the corruption of the prior Biden-Harris administration by making sure President Donald Trump's America First agenda is enacted nationwide.

### UNIVERSE

19,810 \$5+ 0-12  
 18,885 \$10+ 0-12

These red-blooded, flag-waving, anthem-bellowing Americans are proud of their TRUMP VICTORY and they're not tired of winning.

They are sick of the vote-stealing, China-bribing, border-erasing tax-hiking, inept and incompetent Radical Liberal Crime Syndicate. They know if the Left succeeds at slowing the conservative movement the end of America as we know it is not far behind . . .

. . . and with a high average gift, the donors on this list are putting their hard-earned money where their patriotism is!

Test this list for any real conservative political candidate (no Swamp Critters or RINOs allowed!), for every conservative movement PAC, and for all anti-Leftist organizations committed to rescuing our country.
