DESCRIPTION

Some donors think America is just OK. A few will admit America is “pretty good.” But only the very best, the most committed donors agree with President Donald J. Trump.

It’s those donors who will shout from the rooftops that we live in a **GREAT AMERICA!** And it’s those pro-Trump political donors – rare **GREAT AMERICA** patriots – who make up this “new to the market” list.

True Masterfile stalwarts with a high average gift, these generous pro-Trump Americans are digging deep to save our country by contributing to America First campaigns, candidates, and PACs . . .

. . . you know --- the ones who are working day and night to drain The Swamp, elect conservatives to Congress, to put Donald Trump back in the White House, and to keep our nation, well . . . **GREAT!**

Test this list for any truly conservative political candidate (no RINOs allowed!), for every pro-America “elect-Trump” PAC, and for all anti-Leftist advocacy organizations dedicated to making – and keeping – **AMERICA GREAT!**
